office to schedule your
time slot*

October 20th
No School

Classroom News

Business Sample Info:

Your child is required to have 30 samples that represent their business for this weeks Expo. This is meant to be cost effective. Students should be using materials from around the home (with permission) to create. This is a chance for them to be creative and think outside the box to create a unique sample that showcases their business. Samples should not be big and elaborate, just a small representation of the business. Please track amount of any money spent. Samples are to be created at home.

Examples from past classes:

- homemade chocolate
- sports necklace (made from a washer and string...painted)
- Dixie cups of lemonade/drink
- mini cupcakes
- small bag of candy samples
- pencil with sticker of business name
- ETC....

In the Spotlight...

***Students have been continuously aware of due dates
throughout this project. Students will NOT be working on
their display board for their booth until all parts of the
Business Plan has been turned in. I let each student
know last Thursday what they are missing. Most
of the students are doing a great job!
